

# EXC SYSTEME

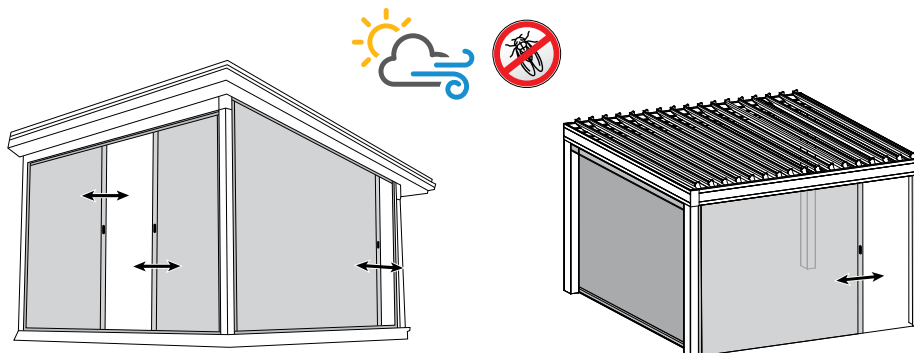

SOLUTIONS FOR YOUR OUTDOOR LIVING SPACE

## VISTAVIEW

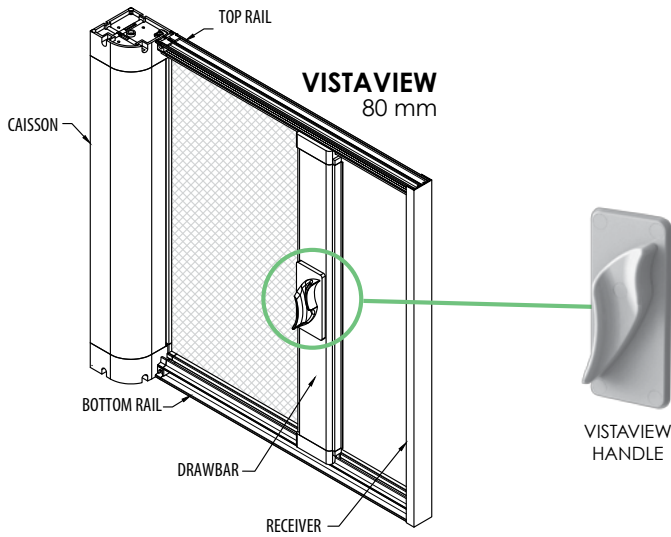

### LARGE OPENING RETRACTABLE SCREEN DOORS

- Manual retractable screen system that can be rolled out to cover large areas and provide protection against insects
- Easy to use system which allows you to easily go back and forth between your outdoor spaces
- Opening can be adjusted effortlessly and can be placed where you want it using a handle equipped with a self-locking brake system
- Tailor-made production
- Sleek and modern design
- Different configurations and layouts available and can cover up to 8.5 meters wide by 3.4 meters high (40 feet x 11 feet)
- Allows to cover enclosed outdoor areas, bioclimatic pergolas and bi-fold door openings
- Different configurations and layouts to match your existing structure or construction

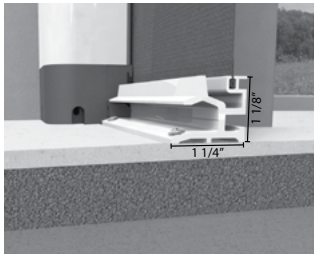

# SYSTEM OPERATION

The fabric systems are inserted into horizontal slides using a zipper mechanism that provides a lateral seal against insects. The system stops at the desired location using a self-locking brake mechanism integrated into the handle.
